GPCID Welcomes Gwinnett Tech Campus To District

CID played lead role in joining mall owners with college officials

(Duluth)—The Gwinnett Place CID is welcoming Gwinnett Technical College's expansion into the District.

Gwinnett Tech plans to offer continuing education courses in new classroom space inside Gwinnett Place Mall.

The Gwinnett Place CID played a facilitating role by bringing together leaders from Gwinnett Tech and Simon Property Group to complete the unique project.

"We are pleased we could work together with Gwinnett Tech and Gwinnett Place to bring this opportunity to area residents and businesses," said Joe Allen, Gwinnett Place CID Executive Director. "The more quality of life and business enhancements that come to the greater Gwinnett Place area, the more resilient our community becomes for the next generation."

According to a recent media release from Gwinnett Tech, "the college will occupy 32,600 square feet at Simon Property Group's Gwinnett Place Mall, opening in mid-September with classes starting in early October 2008."

Gwinnett Tech will use the Gwinnett Place space for such instruction as English as a Second Language (ESL), OSHA training, real estate learning and other trade or skills-based programs.
